

Projected Growth Accommodations for 2018-2019

1

Westlake Will Add Five Additional Classrooms

- Rearrange existing classrooms, which will free up two rooms for new personnel.
- Convert an existing computer room into a classroom.
- Convert the Lecture Hall into a room capable of housing two classes that will be co-taught by two teachers.

2

Offer Early Morning Classes to Alleviate Classroom Use During the Day

- Early Morning classes will be taught Monday through Thursday and will run 60 minutes in length.
- Potential classes may be offered: Secondary 3 Math, Concurrent Enrollment
- Math 1010/1050, AP English Literature, Agriculture Leadership.
- Additional Early Morning classes are under consideration.

3

Provide Co-Taught Classes to Maximize Teacher-Student Interactions

- Co-taught classes will be facilitated in the Lecture Hall.
- Proposed co-taught classes include AP Calculus, Sports Conditioning, AP English Language, Journalism/Video Production, US History, and Current Events.
- Additional co-taught classes are being reviewed.

4

Expand Lunch Serving and Eating Areas

- Additional tables and chairs will be supplied by ASD.
- Current lunch schedule of three periods will continue; however, a fourth lunch period has been developed and will be implemented if needed.

5

Provide Technology Support

- ASD committed to provide an additional portable computer lab with 40 computers and charging cart.

6

Maintain the Commitment to Use Student Advocates and Teacher Mentor Coaches.

7

Counselors Review With Current Students the Following:

- Off-Campus experiences, including MATC courses and Distance On-line classes.
- Early Graduation
- Internships
- Modified schedules

8

Upgrade the Distance Learning Center and Credit Recovery Center

- Accommodate additional students.
- Provide additional support with staffing needs.

Westlake and Alpine School District are committed to providing students with a great educational experience. The steps outlined will allow Westlake to accommodate an additional 250 students without impacting students' ability to receive a quality education.

During this period of growth, Westlake will continue to offer smaller class sizes than most Utah County secondary schools in key academic areas of English and Mathematics. Other academic areas will have similar class sizes compared to other high schools. This will allow Westlake to continue its emphasis on preparing students for college and other post high school opportunities.
